## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-23 are allowed.

The following is an examiner's statement of reasons for allowance: Independent claim 13, when considered as a whole, is allowable over the prior art of record. Specifically, prior art of record fails to teach or clearly suggest the graphical user interface having the first and second graphical representations of content streams, each of the first and second graphical representation having a corresponding graphical indicia, the first and second content display windows wherein the displayed content are associated with the corresponding first and second graphical indicia, respectively, so as to inform a user which displayed content is associated with which content stream. Independent claim 1 recites the corresponding steps for displaying graphical elements of the graphical user interface of claim 13, thus is also allowable. Independent claim 7 recites the computer readable medium (not disclosed as being included intangible media) comprising corresponding program code means for displaying the graphical user interface, thus is also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
